

# How to remove unwanted toolbars from your browser

If you are using [Internet Explorer](#), please follow the following steps:

- Click the gear icon in the upper right corner and select "Manage add-ons."

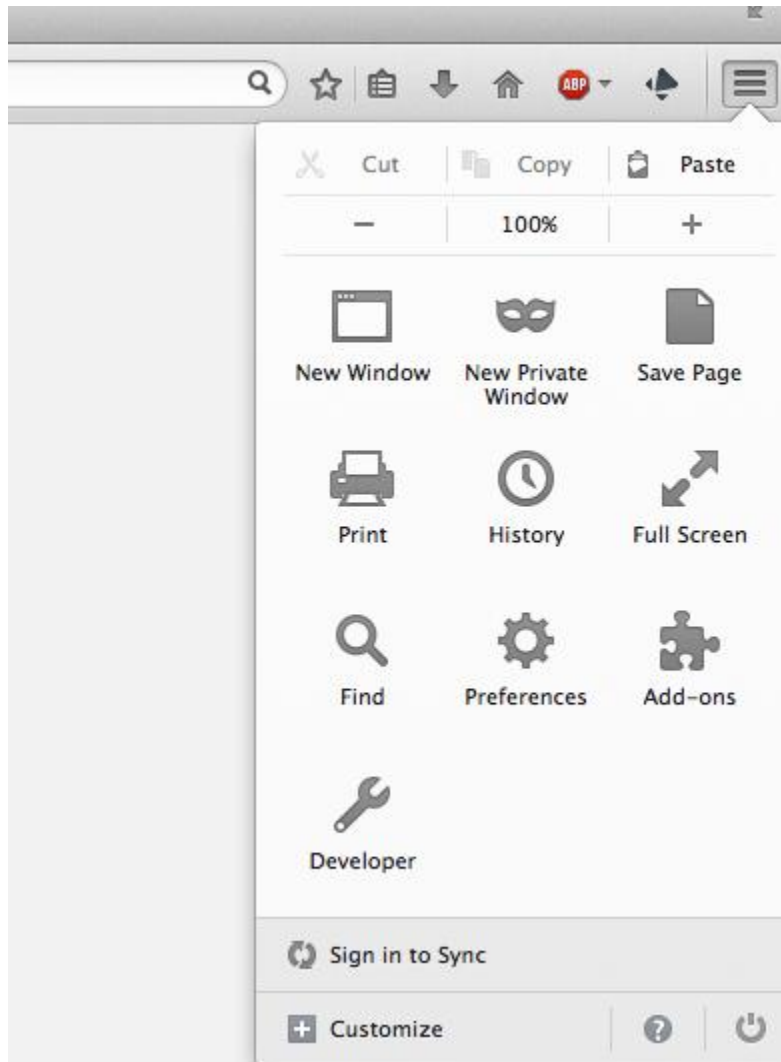

- You'll end up at the Toolbars and Extensions screen. Delete all unwanted extensions from here. Like in the example below 'BuyNSave' should be removed. **Some other examples of ad-injection software are Slick Savings, SearchMe, VSearch, myBrand etc**

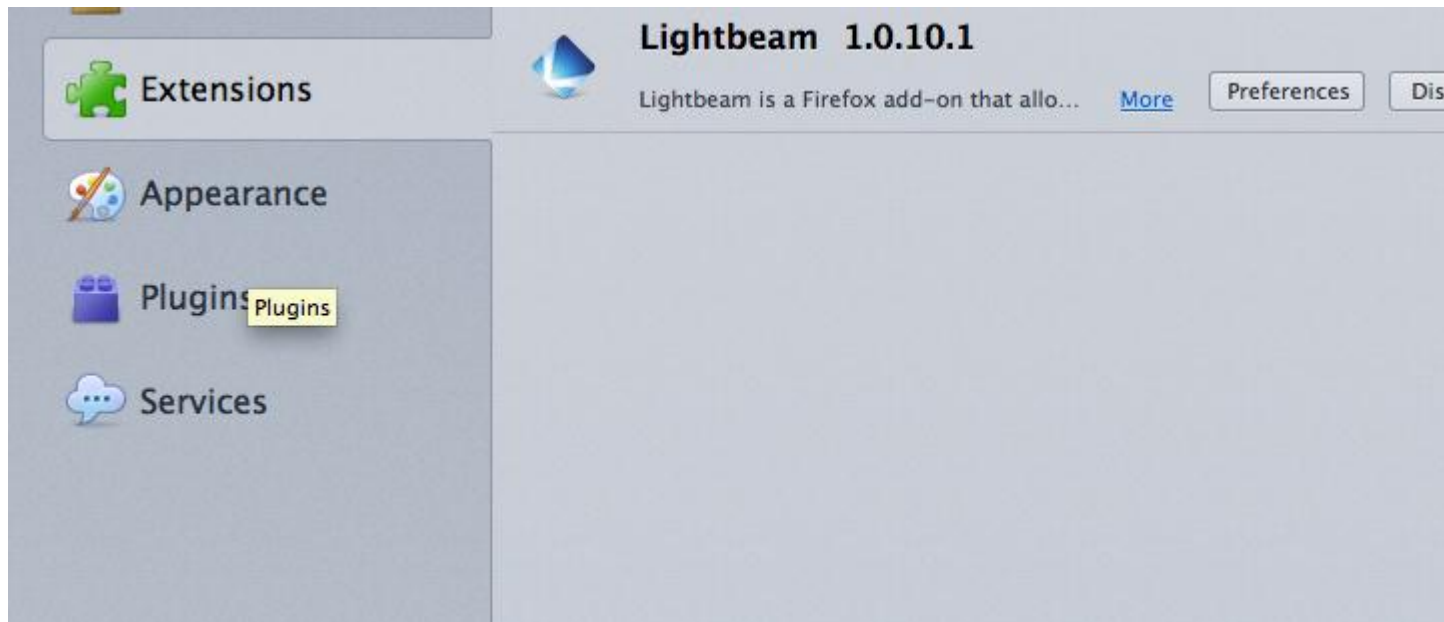

If you are using [Mozilla Firefox](#), please follow the following steps:

- You can find Firefox's option menu by clicking on the 3 bars located to the far right of your browser.
- Now click the add-ons button to navigate to the add-ons page.

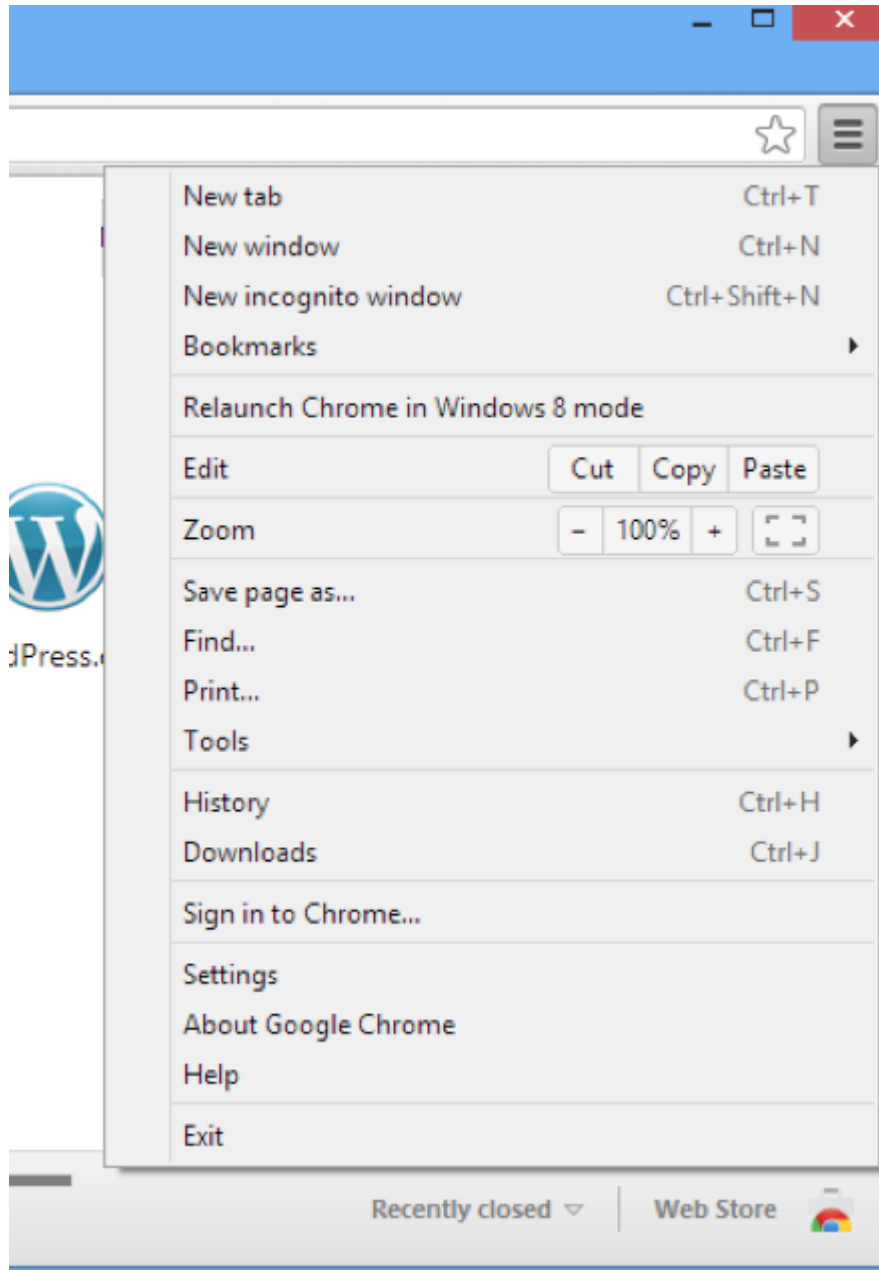

- Then click Extensions to see what's installed. Remove all unwanted extensions from here. Some examples are **BuyNSave**, **Slick Savings**, **SearchMe**, **VSearch**, **myBrand** etc
- Some of them also get installed as Plugins. So, please click on plugins and remove unwanted plugins from there too.

If you are using [Google Chrome](#), please follow the following steps:

- Click the three lines to see Chrome's option screen. Then mouse over the "tools" icon and click the "extensions" button.

- You will come to a page that looks like the one below. Click the Extensions link to see what's installed. Remove all unwanted extensions from here. Some of these extensions are - **BuyNSave, Slick Savings, SearchMe, VSearch, myBrand, Omnibar, Ebay Shopping assistant etc**
